Hurricane Katrina Donation Update!

Please help your fellow Postal Employees who were devastated by Hurricane Katrina.

Hundreds of letter carriers and other postal employees were seriously affected by Hurricane Katrina. The overall impact to our fellow workers has yet to be reported.

We have been in contact with the Louisiana and Mississippi State Association of Letter Carriers. Both associations are currently dealing with the massive relocation of employees and have asked that branches and individuals interested in making a donation to help postal victims of Hurricane Katrina please send a check to: Postal Employees' Relief Fund, P.O. Box 34422, Washington, DC 20043-4422.

Unfortunately due to the magnitude of the crisis initial donations to charities, while sincerely appreciated, will not be enough to assist all of our employees who have been affected by this tragedy. To continue to help our fellow members we are asking all individuals to get involved in the upcoming Combined Federal Campaign through ongoing donations to the Postal Employees' Relief Fund (CFC #9891).

Our thoughts and prayers go out to the hundreds of postal workers and their families who are facing hardships caused by this catastrophic event as well as to those in California who have family and friends in these states.

In unionism,

John Beaumont
